### REASONS FOR ALLOWANCE

---

- The following is an examiner's statement of reasons for allowance:

Claims 1, 4-5, 14-18 and 27-32 are allowed as amended over the arguments by the applicants and the prior art of record that neither teaches nor fairly suggestive of an electrode paste having a principal components of either CuO or CuO+Cu along with a cooperative member meeting the limitations of the instant claims by the applicants.

The examiner construes the term "cooperative member" in the claims to be definite per the disclosure in the specification by the applicants. The examiner further construes the units of wt% in the claims to be based on the total composition of the paste, except the cases involving CuO and Cu in the composition where it has been calculated to CuO in terms of the ratio of the molecular weight. The amendments to the claims have been supported by the disclosure and convey no new matter.

- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
